Re: Laborers' Metropolitan Detroit Health Care Fund (Fund)
Summary of Material Modifications (SMM)
August 1, 2024 Verification of Disability Status For Dependents Age 26 and Older

Dear Participants:

This is an important notice about a **new** disability status verification requirement for participants who have a **disabled dependent age 26 and older**, effective August 1, 2024.

If your disabled dependent attains age 26 on or after August 1, 2024, you **must** provide the Fund Office documentation showing your dependent is receiving Supplemental Security Income (SSI) or Social Security Disability Insurance (SSDI) when they attain age 26 and every two years thereafter to remain eligible for Fund coverage as a dependent. Failure to verify SSI or SSDI status will result in your disabled dependent's Fund coverage being terminated.

Please note: This new verification requirement does **not** apply to participants who have a disabled dependent who is older than age 26 and who was receiving Fund coverage prior to August 1, 2024.

Sincerely,

Board of Trustees
Laborers' Metropolitan Detroit Health Care Fund
